

Download the latest versions of  
PowerVision Configuration Studio®

Install multiple PowerVision  
versions from one application

Single-seat annual license

Required to program the  
newest PowerView displays

## INSTALL, LAUNCH AND MANAGE MULTIPLE POWERSVISION VERSIONS FROM A SINGLE DESKTOP APPLICATION

SPARK® Software Manager makes it easy to download and install the latest version of PowerVision Configuration Studio®. From the simple interface, users can launch, install and manage past, current and future versions of PowerVision from a single desktop application.

SPARK Software Manager is licensed\* annually on a per-seat basis and is the exclusive home of PowerVision Configuration Studio versions 2.9 and above. Future PowerView hardware will require versions of PowerVision exclusively available through SPARK Software Manager.
